COMMISSIO REDACTORIUM

Sándor Bácsó (Debrecen), Sonja Gorjanc (Zagreb), Tibor Gyimóthy (Szeged),
Miklós Hoffmann (Eger), József Holovács (Eger), Tibor Juhász (Eger),
László Kovács (Miskolc), Zoltán Kovács (Eger), Gergely Kovásznai (Eger),
László Kozma (Budapest), Kálmán Liptai (Eger), Florian Luca (Mexico),
Giuseppe Mastroianni (Potenza), Ferenc Mátyás (Eger),
Ákos Pintér (Debrecen), Miklós Rontó (Miskolc), László Szalay (Sopron),
János Sztrik (Debrecen), Tibor Tajti (Eger), Gary Walsh (Ottawa)

HUNGARIA, EGER

Contents

Research papers

I. BLAHOTA, Approximation by de La Vallée Poussin type matrix transform of Vilenkin-Fourier series 1

A. BREMNER, A. MACLEOD, Corrigendum: An unusual cubic representation problem 26

J. CHIMPANZO, P. CATARINO, M. V. OTERO-ESPINAR, On tridimensional balancing numbers and some properties 28

M. CRASMAREANU, Cubics and conics geodesically associated to the points of a geometric surface 46

I. FAZEKAS, N. H. MASASILA, Quantitative strong laws of large numbers for random variables with double indices 55

T. GLAVOSITS, J. TÚRI, Hosszú type functional equations on Lie algebras . . 66

A. GUEYE, S. E. RIHANE, A. TOGBÉ, There are no k -Pell numbers expressible as products of two Fermat numbers 77

F. LUCA, M. C. MANAPE, On the sum of divisors function of linearly recurrent sequences 91

A. MOULAI-KHATIR, Parameter identification in a simple chemostat model using neural networks 99

T. ÓDOR, E. DINNYÉS, Plancherel formula for the attenuated Radon transform 116

H. SAKER, F. EYVAZOV, T. E. ALI, Cs. BIRÓ, D. Z. ALWAHAB, Comparative analysis of homomorphic encryption schemes for encrypted image processing in OpenStack using TenSEAL 123

D. UPADHYAY, H. CHANDRA, Unit group of semisimple group algebra of groups of order 36 143

T. YAMADA, Corrigenda to the paper “Infinitary superperfect numbers” . . . 156

Methodological papers

P. CSIBA, Z. FEHÉR, L. JARUSKA, SZ. SVITEK, M. VONTSZEMŰ, Mathematics teachers’ beliefs about primary school students’ mathematical attitudes 158

Á. FIGULA, E. KÁSA, The application of cooperative group work and APOS Theory in topic of logarithms 171

P. HAUKKANEN, T. TOSSAVAINEN, On rational decimal numbers for lower secondary mathematics teachers 209
